**Continuing Education Credit:**

**PCE Credit Statement**

Pharmacy Continuing Education (PCE) credit will be earned based on full participation in the individual programs. The number of contact hours that may be earned for each session is indicated in each program listing. Attendance and participation in a session are required before obtaining PCE credit. Any individual who joins the program late and/or leaves early will not be granted PCE credit. Participants must complete a program evaluation form and posttest for each program to receive PCE credit as well as sign the attendance form. This procedure will be strictly enforced, so please plan accordingly. A statement of credit will be mailed to participants meeting these requirements within four weeks after each program has been conducted.

NOTE: Due to new continuing education guidelines, most presentations have been ACPE accredited for pharmacists and PTCE accredited for pharmacy technicians. If a program was not accredited for pharmacy technician continuing education credit, it was deemed that programs related to functions outside of the scope of practice for a technician; therefore would not be accepted by PTCE for recertification.

*The Michigan Pharmacists Association is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education.*

*The Michigan Pharmacists Association is an approved provider of Pharmacy Technician Continuing Education.*

Statements of credit will be mailed by MGH four to six weeks after the event.

**MPA-Upper Peninsula Division Fall Seminar 2009
