

About the Walk

This walk serves to raise money for the advancement of brain tumor research; however, the walk is more than just a fundraiser. It's about raising awareness. It's a chance for brain tumor patients and their families to connect with others who are fighting the same battle. Walkers share stories of hope, challenge, and loss with those who can truly understand.

Upper Michigan Brain Tumor Center

All proceeds from this fundraising activity benefit Marquette General Foundation, and are earmarked exclusively for the Upper Michigan Brain Tumor Center at Marquette General Hospital. The Center provides quality patient care, conducts innovative brain tumor research, and is strongly dedicated to patient and family education and support. The Center's philosophy is "Hope Starts Here." Dr. Richard Rovin, co-founder, explains:

Hope is going to the operating room to remove a cancer. Hope is going to the lab to search for a clue that might lead to a better treatment. Hope is spending time with my patients and families, listening. The UMBTC is made up of people who Hope. Hope is what we do. Hope is who we are. That is why I can truly say Hope Starts Here.

**Remembering
Don McInnis and
Sue Anderson**

Walk in the Park is coordinated by the families of Don McInnis and Sue Anderson. We walk to honor the memories of Don, Sue and all those who have passed, and send our strength to those facing brain tumors. With the help of our generous sponsors, walkers and donors, we continue to share hope.
