

Ophthalmology Elective
SUR 615

Prerequisite: Fourth year medical students who have successfully completed their Junior Surgery clerkship.

Objectives:

- Demonstrate increased clinical judgment related to ophthalmologic diagnosis.
- Demonstrate increased knowledge of diagnostic tests and patient management related to ophthalmologic problems.

This elective will offer the student insight into what an ophthalmologist does in evaluating and treating patients. Students will gain experience in diagnosis and treatment of medical, emergency and surgical ophthalmologic problems.
