Breastfeeding Support

Breastfeeding Classes

These classes are designed to be helpful to you before baby arrives. Topics include supplies and equipment, initiating breastfeeding in the hospital, success in the first days at home, supplemental feedings, potential problems and cures, and when to wean. Held monthly; call to register.

Lactation Support

If you are in need of additional breastfeeding support after the delivery of your baby, individual breastfeeding sessions with a lactation consultant are available one day a week. A small fee per session applies. Call to register.
