UP Health System–Marquette’s mission is simple: Making Communities Healthier®. By creating places where people choose to come for health care, physicians want to practice and employees want to work, we are providing quality care close to home and investing in our region’s overall well-being. Your support allows us to continue to enhance the many ways we serve and care for Michigan’s Upper Peninsula today and for generations to come. Thank you.

— Gar Atchison, CEO, UP Health System–Marquette and Market President, UP Health System

In 2019, we...

- added 36 employed and affiliated providers
- made more than $35 million in capital improvements
- distributed a payroll of $148,575,954 to approximately 1,880 employees
- donated nearly $10 million in services to those in need
- paid $27,104,836 in taxes

Inviting the best possible providers into our community and supporting them is essential to ensuring access to high-quality care. This year, we added providers in obstetrics and gynecology, family medicine, heart care, neurosurgery, wound care, pediatrics, emergency medicine, palliative care, gastroenterology, genetics, interventional radiology, cancer care, neonatology, orthopedic surgery and more.

By continually investing in our facilities, we’re helping to ensure that we continue to meet our community’s health care needs. This year, we invested in the completion of our new facility, as well as facility and clinical improvements.

We strive to create an environment where talent is recognized, job satisfaction is valued and our employees can effectively use their skills to provide high-quality care and service.

Delivering care to all of our neighbors, regardless of their ability to pay, is foundational to our mission and our commitment to our community.

We are proud to be a leader in our region, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.

Duke Lifepoint Healthcare, a joint venture of Duke University Health System, Inc. and LifePoint Health, was established to build a dynamic network of hospitals and health care providers. The joint venture, which brings together LifePoint’s experience in community-based hospital management and Duke’s world-renowned leadership in patient safety and clinical quality systems, is strengthening and improving health care delivery by providing community hospitals the clinical, quality and operational resources they need to grow and prosper.
